CAREER SNAPSHOT – Driven computer science student with a focus on AI, machine learning, and data-driven innovation. Led award-winning project, **FitForge**, an AI fitness platform, imparted skill acquisition knowledge to inexperienced developers, and crafted positive team culture in every role.

SIGNATURE ACHIEVEMENTS:

- ✓ **FitForge – AI Physical Performance application designed to help individuals reach fitness goals**
- ✓ **Centenario – Data Analysis project visualizing key metrics for car rental company.**

SIGNATURE STRENGTHS & COMPETENCIES

<u>SKILLS</u>	<u>LANGUAGES</u>	<u>TOOLS</u>
Agile	Python R	AWS
Data Wrangling	SQL	Git
Linux/DOS Command line	C#	Colab
ML Pipelines	Java Script	R Studio
Data Analysis Accuracy	HTML/CSS	VScode
Leadership	React	Tableau
Cultural Competence	NextJS	MongoDB

PROFESSIONAL EXPERIENCE

FITFORGE – REXBURG, IDAHO | EMPLOYMENT DATES

Position Title

- **Engineered a full-stack fitness application** leveraging AI to create personalized weekly workout and nutrition plans tailored to user information and goals.
- **Developed an intuitive user interface** with Streamlit and utilized MongoDB for efficient data storage and scalability.
- **Integrated Gemini APIs** to enable AI-powered recommendations and personalized user experiences to enhance user demand.
- **Deployed the application** using a GoDaddy domain to ensure accessibility and seamless functionality throughout interface.
- **Mastered full-stack development**, API integration, and the design of personalized AI-driven applications.

BRIGHAM YOUNG UNIVERSITY IDAHO – REXBURG, IDAHO | JUNE 2024 – PRESENT

TA (DS visualization, DS programming)

- **Contributed to course preparation**, creating coding examples, grading assignments, and refining materials for better clarity and engagement.
- **Gained skills in evaluating student projects**, fostering improved learning outcomes and receiving positive feedback for teaching effectiveness.
- **Facilitated lab sessions and tutorials**, helping students with Python programming, data manipulation, and visualization using tools like matplotlib, seaborn, plotly, and Tableau.

PROFESSIONAL EXPERIENCE, CONTINUED

PYCODE EDUCATOR – REXBURG, IDAHO | JUNE 2024 – PRESENT

Position Title

- **Designed and architected** an interactive educational platform using **Next.js**, **React**, backend APIs, and AI integration.
- **Implemented features** such as user data management, personalized feedback, and interactive tools to enhance the learning experience.
- **Collaborated within a multidisciplinary team** to deliver an AI-powered learning experience tailored to individual users.
- **Strengthened expertise** in creating AI-driven educational technologies and leveraging modern web development frameworks.

CENTENARIO DATA ANALYSIS – REXBURG, IDAHO | EMPLOYMENT DATES

Position Title

- **Crafted** a QMD data analysis to visualize peak rental periods, popular destinations, and other critical metrics for Centenario, a leading rental car company in Mexico.
- **Enhanced** fleet management strategies by leveraging Python and pandas for data cleansing, analysis, and visualization.
- **Formulated** actionable insights through advanced data preprocessing and tailored visualizations.
- **Refined** operational efficiency by applying data-driven strategies based on analytical findings.

BRIGHAM YOUNG UNIVERSITY IDAHO – REXBURG, IDAHO | JUNE 2024 – PRESENT

Tutor (Data Science Lab)

- **Provided individualized and group tutoring for data science students**, offering guidance on statistical analysis, machine learning, and data visualization using Python, R, and Tableau.
- **Offered clear step-by-step explanations**, personalized feedback, additional resources, and active problem-solving techniques, while also conducting regular progress check-ins to ensure continued understanding.
- **Honed expertise in mentoring students** through complex topics and enhancing their problem-solving skills and understanding of data science principles.

EDUCATION

BACHELOR OF SCIENCE – MAJOR COMPUTER SCIENCE, MINOR DATA SCIENCE | Brigham Young University, Rexburg, Idaho

- **GPA:** 3.5
- **Major:** Computer Science
- **Minor:** Data Science
- **Specialty:** Machine Learning
- **Clubs & Societies:** Computing Society, Data Science Society

AWARDS

BRIGHAM YOUNG UNIVERSITY IDAHO – Academic Scholarship

EAGLE SCOUT – Boy Scouts of America (Sarah J. Anderson's Playground US map mural.)
